

COME BE

ANGEL AND
SUPPORT STS IN A
FUNDRAISER FOR
CHARLIE'S FIGHT

Meet Oscar "Charlie" Rubio. He was born on March 15th, 2015. Charlie has a congenital heart defect and had open heart surgery to repair it. His heart has not recovered from his surgery and he remains critically ill 50 days later. Charlie is on the highest form of life support called ECMO, which is a machine that is supporting his heart function. In addition to being on support he also requires quite a bit of blood products from United Blood Bank on a daily basis.

Charlie has had many surgeries and has lived in the hospital for 2 months with his parents Cherie whom is a teacher and his father Oscar whom is a Mesa Police Officer and with his 2 sisters. Charlie's family remains at his bedside in hope that time will allow his heart to recover.

Please join Scott's Training System's in a fundraiser to help this family in need at this tough time in their lives.
